The Montgomery County Transition Work Group is pleased to welcome you to the 2018 Transitioning Youth Resource Fair

The Transition Work Group includes parents of young adults with intellectual/developmental disABILITIES/autism as well as representatives of adult service providers, state and local government agencies, non-profit organizations and advocacy groups.

We work to improve transitions from school to post-secondary education, work – and as much independent living as each person desires. We have advocated for improved career readiness, as well as employment and educational opportunities, improved housing and financial choices.

We also work to make more and better information available to students and their families. We are sponsoring this Resource Fair to help you consider the questions you need to be asking and some of the answers that are available as young people exit school and make other transitions in their adult lives.

We have produced several brochures in English and Spanish, including

- *A Parent's Guide to Helping Career Seekers with Disabilities Find Jobs*
- *A Transition Checklist for Students with Disabilities and Their Families*
- *What is Special Education?*

We welcome new members. We meet on the second Tuesday of each month, from 2:30 – 4:30p.m. at TLC Outcomes, 2092 Gaither Rd., Rockville, MD.

Thank you for joining us today!
